

Assignment 2: Ontology Write Up

My ontology is for the Throne of Glass series by number one New York Times Bestselling author, Sarah J Maas. Throne of Glass is a fantasy series, therefore it has dynamic family trees, character relationships, and maps. The scope of my ontology is the people and places in Throne of Glass that exist up to and including book five, Empire of Storms. The “Places” subcategory includes only locations shown on any of the maps at the front of the books, with one exception; Wendlyn and its cities are not mapped, however I felt they were significant enough to the story and related to significant characters in the ontology, that they should be included. The “People” subcategory contains characters that are mentioned at least several times in the novels. As I have “People” and “Places” as my subcategories, my object properties consist of locational relationships and familial relationships.
